

Sample Family Bucket List

Below you will find a sample bucket list with ideas that can be adapted to suit your family.

This list includes activities that our boys chose for the past two summers. You'll need to adapt it for your own family, to make it age appropriate and specific to your location.

This list has suggestions for activities for the summer, but it can easily be adapted into an Annual Family Bucket List, Spring Break Bucket List, or whatever time frame you desire.

We always make sure to leave blank spaces at the bottom to add more activities as we think of them throughout the summer or year!
